<b>Company Name</b>	LUKA KOPER d.d.
<b>Web</b>	<a href="http://www.luka-kp.si">www.luka-kp.si</a>
<b>Representative Name, Family Name</b>	Mr. Andraž Novak
<b>Position in the Company</b>	Member of the Management Board
<b>Phone</b>	(+) 386 5 66 56 739
<b>Email</b>	<a href="mailto:Andraz.novak@luka-kp.si">Andraz.novak@luka-kp.si</a>
<b>Sector</b> Industrial/service sector your company belongs to:	Logistics
<b>Company Description</b> <i>This section will be forwarded to Iran based companies to introduce who you are, what you do, and your specialty</i>	<p>Luka Koper, port and logistic system, d.d. is a public limited company which develops and manages the Port of Koper, the only Slovenian seaport of very strategic interest. The company operates all <b>12 specialized terminals</b> in the multipurpose port, handling all types of cargo: containers, cars and Ro-Ro, various general cargo products, dry bulk, liquid bulk and passengers. The total throughput of the port in 2015 was 20,7 million tons, including 790,000 TEUs and 607,000 car units, making Koper the <b>largest container terminal in Adriatic</b> and one of the largest car terminals in the Mediterranean.....</p> <p>The Port of Koper has a strategic geographic position in the North Adriatic region and therefore important opportunities for servicing its Central European markets. It represents the <b>shortest link from the Far East via Suez to Europe</b> with a distance that is about 2,000 nautical miles shorter compared to other North-European ports and consequently enabling around 5 days shorter transit time. The consequent advantage is the optimization of the whole supply chain, making it more efficient and lean, with substantial cost and time savings for the customer.</p> <p>The majority of the port's throughput is destined for the hinterland countries, namely: Austria, Hungary, Italy, Slovakia, Czech Republic, Germany and others. Port's connectivity shows a very high dependency on railway support as <b>60% of all cargo handled in the port is transported by rail</b> with daily container trains departures to main business centres in central Europe. Maritime connections include Mediterranean feeder and other short sea trade services. Koper has especially good container connections with Far East and South-East Asia, with weekly arrivals and competitive transit times.</p> <p>The main development focus will be on containers and cars. The development plan of the Container terminal anticipates the extension of Pier No. 1 and the construction of new facilities, enabling an annual throughput of 1.3 million TEUs by 2020.</p>

**Target  
companies for  
B2B meetings**

Companies from logistics sector, shipping association of Iran, HDSL and other companies (forwarders, shipping lines, agents)
