---	---	---	---

**COMPANY ACTIVITIES:**

- WHO WE ARE: Description of your main activities (5-6 lines max):

SITS is a family business founded in 1969 as the Société d'Installation Téléphonique et Signalisation (Company for Telephony Installation and Signalling). The SITS group operates in urban settings and possesses expertise dedicated to railway facilities, its primarily specialty. With its expertise in laying copper cables and fibre optics, SITS plays a major role in railway signalling and in the deployment of broadband networks for telecom operators. SITS now employs 120 people; its headquarters is 55 km west of Paris.

- WHAT WE DO (EXPERTISE OF YOUR COMPANY): Product or Service description (3-4 lines maximum)

SITS Installs networks for telecommunication, railway signalling and railway stations. CableRail® offers two technologies for laying copper cables or HDPE tubes:

- CableRail Surface® first installs cable troughs (concrete or composite) and then, in a second pass, a number of cables and trough covers. All at up to 300 metres/hour.
- CableRail Sub® buries, in one single pass, a number of cables simultaneously up to 80 cm deep and at up to 420 metres/hour.

- SUCCEED WITH US: (Teaser concerning the solution or project offered to future Iranian partner– 3-4 lines maximum)

The CableRail® system from SITS installs and protects copper cables and tubes for fibre optics along railway tracks. Fast, safe, secure, precise, versatile and economical, CableRail® supports railway signalling and telecommunication companies by installing copper cables, high-density polyethylene (HDPE) tubing for optical fibre, or both simultaneously.

- FEW CUSTOMER REFERENCES (MENTION IF IRAN / MIDDLE EAST):

Companies and its subsidiaries: SNCF RESEAU, BOUYGUES, EIFFAGE, VINCI

- CERTIFICATIONS / NORMS / AWARDS / PATENTS :

ISO 9001-14001-18001 / SNCF (SIG-GC) / QUALIBAT / QUALIFELEC / FNTP

- TWO PHOTOS ILLUSTRATING YOUR ACTIVITY/PRODUCTS

## CableRail Surface®

installs concrete or composite surface troughs, lays cables or HDPE tubes and affixes covers. All at 300 metres/hour.

## CableRail Sub®

is a cable plough that buries cables or HDPE tubes 60 cm deep at 420 metres/hour.
